“BIG ENGINES NEED BIG CARBURETORS”

1700-2000 CFM

Many of today's racing engines are big, very big, making huge power. BLP Products has responded with the **BIG BO** line of carburetors for naturally aspirated and nitrous-assisted engines. Starting with a Holley® Dominator® main body; **BIG BO** carb's flow more than 1700 CFM while maintaining excellent booster signal and driveability. *1700+ CFM can produce a lot of power!*

BIG BO FEATURES:

- *Uses stock Holley® mounting location.*
- *Uses Holley® metering blocks, bowls, boosters, jets, squirters, etc.*
- *Available in 2 or 3 circuit calibrations.*
- *Available in 'Split' form.*
- *1700+ CFM rating.*
- *Excellent throttle response.*
