

BASE PLATE COMPONENTS

PART NO.	APPLICATION
5635	OEM 4150 throttle plate screw.
56351	1/8" SS button head throttle plate screw (Torx design).
56352	3/16" SS button head throttle plate screw (Torx design).
56353	1/4" SS button head throttle plate screw (Torx design).
51260	Throttle plate screw for 4500.
51271	Screw, throttle adj 4150-4500.
51601	Screw, secondary throttle adj 4150.
51601-1	Screw, throttle adj for billet base 4150.
5584	Screw, secondary pump cam bracket.
5567	Screw, base plate to main body.
291094	Pin, secondary return spring.
37133	Pivot, accelerator pump arm.
371331	Pivot washer for billet base.
4744	Clip, pump arm retainer.
38110	Spring, throttle adj 4150-4500.
381762	Secondary throttle return spring, 4150 with progressive linkage. This spring is 25% stronger than the OEM and is made from stainless steel wire.
381387	Spring, Secondary throttle return for 1:1 linkage, roller style.
5304	.215 Alum plug for 4x idle base plate.
7556	Plug, 3/8 cup for 390 base plate.
14486	Tube, 3/8 vacuum.
14521	Tube, 3/16 vacuum.
7550	Plug, 3/16 vacuum.
7550-3	Plug, 1/4 rubber vacuum.
43601	Progressive secondary throttle link.
43601-1	1:1 secondary throttle link.
46395	Secondary throttle link washer.
48183	Secondary throttle link cotter pin.
63822	Secondary accelerator pump cam bracket.
63822-1	BLP secondary accelerator pump cam bracket, (bracket only).
638221-1	BLP secondary accelerator pump cam bracket (Complete).
638221-2	Throttle stop, secondary 4150.
638221-3	Throttle stop lever only.

HOLLEY® REPLACEMENT THROTTLE SHAFTS

BLP offers a full line of genuine Holley® throttle shafts for the 2300, 4150 and 4500 series carburetors.

PART NO.	APPLICATION
101590	Primary 1:1 4150 roller style.
101633	Secondary 1:1 4150 roller style.
101808	Throttle shaft for 350/500cfm.
102264-3	Primary progressive linkage 4150.
102264-3W	Primary progressive linkage 4150, with welded arm and coated shaft.
102203	Secondary progressive linkage 4150.
103269	Primary "Double Hump" progressive roller style for 390HP carbs.
103273	Secondary "Double Hump" progressive roller style for 390HP carbs.
103297	Throttle shaft, 4500 Primary and Secondary.

BLP PRO-FLO THROTTLE SHAFTS

BLP Pro-Flo throttle shafts for the 2300-4150 series. The Pro-Flo series are thinned for optimum air flow: the arm is welded for strength then the assembly is electrolysis nickel plated for corrosion resistance and visual appeal. The kit includes 4 BLP56351 throttle plate screws.

PART NO.	APPLICATION
102264-35	Primary with progressive linkage.
102203-5	Secondary with progressive linkage.

BLUEPRINTED 390HP THROTTLE SHAFTS

390HP throttle shafts for the NASCAR series carburetors. Throttle shafts are machined to match the checking gauges then the arm is welded to the shaft. The shafts are then coated for rust and wear resistance

PART NO.	APPLICATION
102264-390	Primary with progressive linkage.
102203-390	Secondary with progressive linkage.

TAPERED 390HP THROTTLE PLATES

390 tapered throttle plates that are legal in the Busch South and Craftsman Truck Series.

PART NO.	APPLICATION
91031	Primary
91032	Primary (hi-flow)
9961	Secondary
9962	Secondary (hi-flow)
